INSTRUCTIONS FOR ORDERING EXTRAS

Place your orders as far in advance of harvest as possible.

Place all orders with our authorized dealer in your territory.

Order all parts by LETTER, if possible.

If need for parts is urgent, order by TELEGRAPH. Telephone orders are taken at purchaser's risk as to delays and all transportation charges.

Give number and full description of parts, as well as size of machine for which wanted. Only our castings and motor parts are numbered. Therefore, give measurements as well as full description when ordering parts for Drapers, Straw Carriers, Grain Carriers, Jackson Feeders, Separator Shoes, Screens, Shafting, etc.

Give your postoffice address, shipping point, county and state. Indicate whether shipment is wanted by express, freight or parcel post.

Consider the time of less-than-carload freight shipments before ordering parts by freight.

Express and freight shipments will be made charges collect unless there is no freight or express agent at your shipping point, in which case charges will be prepaid and added to charge for parts.

On all shipments by parcel post, postage will be added to charge for parts.

Shipments are not insured unless requested. (We will gladly insure parcel post shipments on request, adding the cost to our charge.)

A packing list is included in each shipment of repairs. When received, compare the parts with this list and in case of shortage make report AT ONCE. Unless this is done, claims cannot be allowed.

No parts furnished free except in accordance with machine warranty.

Except where the responsibility is ours, a handling charge of 10 per cent of our charge for parts returned will be made in allowing credit.
